PREPARATION: 20 MINUTES | MARINATE OVERNIGHT | COOKING: 3 1/2 - 6 HOURS | SERVINGS: 8

GINGER AND APPLE SLOW COOKED PORK

INGREDIENTS

1 pork loin roast (1.5 lb)

1 tablespoon ginger powder

1/2 tablespoon garlic powder

1/2 tablespoon paprika

1 cup celery, chopped

2 cups yellow onion, sliced

3/4 cup carrots, sliced

2 bay leaves

1/2 cup white wine

1/2 cup apple juice concentrate

1/4 cup cider vinegar

2 medium apples, peeled and sliced into thick wedges

PREPARATION

- 1** Rub pork with ginger, garlic and paprika and place in a slow cooker or oven-proof dish.
- 2** Place the vegetables and bay leaves around the pork.
- 3** Whisk wine, apple juice and vinegar together and drizzle over pork.
- 4** Cover and let marinate overnight in refrigerator.
- 5** Prepare apples and add them to the pot.
- 6** If using a conventional oven, cover the roast and bake at 300°F for 3 1/2 hours.
- 7** If using a slow cooker*, choose high heat and cook for 6 hours.

* Cooking times may vary depending on the make of the slow cooker.

SUGGESTIONS

- ✓ *Sprinkle with parsley and serve with white rice. Enjoy leftovers which make great cold cuts for sandwiches and salads!*

Kidney-friendly seasonings: ginger and garlic

Many people with kidney disease may have to limit the amount of salt, potassium and phosphorus in their diet. This may cause you to feel sticking to a kidney-friendly diet will be hard, but there are a couple key tips for adding flavor to your dishes.

First, allow your taste buds time to adjust to your dietary changes. Within a few week of following a low-sodium diet, you will become more sensitive to the taste of salt and foods that you enjoyed previously may now taste too salty.¹

Second, experiment with a variety of salt-free and low-potassium spices such as ginger or garlic to create different combinations to keep meals flavorful.

Ginger is typically purchased as a root or in powdered form and is safe to use as a low-potassium seasoning in your kidney diet. Try using ginger in a stir-fry, desserts, beverages, and on main entrée meats such as pork or fish.

Garlic, fresh in cloves or dried in a powdered form, can add delicious flavor to a variety of kidney-friendly dishes. Soups or stews, sauces, side dishes and main entrée recipes can all use garlic to add plenty of flavor without the need of an additional salt seasoning.
